C                           A
Oh, they used to call her Mary
D                           D7
But then they took the "R" away
G               Em    D7        G
Oh, she wanted to be a flapper, you see
D7                          G7
With a cute little name like May

C                           A
And then a young man came romancing
D                           D7
And in a year they called him "Pa"
G               Em    D7        G
So, they took the "Y" away from May
D7                      G7
And now they call her "Ma"

C                           A
Oh, they used to call her Mary
D                           D7
And then they took the "R" away
G               Em    D7        G
Oh, she wanted to be a flapper, you see
D7                          G7
With a cute little name like May

C                           A
And then a young man came romancing
D                           D7
And in a year they called him "Pa"
G               Em    D7        G
So, they took the "Y" away from May
And now they call her,
What do they call her
Yes, they all call her "Ma"
